5. Science Performance.....	9
6. Social Studies Performance.....	11
7. Practice Questions and Explanations	13

PERSONALISED STUDENT FEEDBACK

Dear Student Name,

Congratulations on taking the ASSET test!

ASSET is a diagnostic test that tells you which skills you are strong at and which skills you should work on to develop further. The analysis given here is for all the subjects for which you have taken the ASSET test.

Subject	Highest-performing Skills	Lowest-performing Skills
English	Identifies synonyms, antonyms and other words	Registers moods, tones and emotions
	Identifies and recalls direct facts in the passage	Knows punctuation and sentence formation
Maths	Number sense, related competency and computation skills	Data interpretation/analysis: concept of averages, graph reading, etc.
	Fractions, decimals, ratios and percentages: applications	Geometry: concepts and applications
Science	Extraction, translation and application of knowledge or information	Integrating different concepts or information for decision making
	Definition or description of scientific terms, organisms or materials	Analysis of information to identify trends or properties
Social Studies	Knowledge and understanding of governance	Analyzing historical source evidence, and chronological knowledge and understanding
	Knowledge and understanding of historical developments	Analyzing geographic information

Practice questions compiled especially for you!

This MyBook will guide you to improve those areas where your performance was low! In each subject, we have chosen two skills which includes at least one skill in which you have not performed well, and provided practice questions for the same. Answers to all these questions with explanations are provided at the end of this booklet.

Remember, this is YOUR practice book - no other student taking ASSET would get exactly the same set of questions! So do them carefully. Also write to us and tell us if you found the questions helpful. Email us at feedback@ei-india.com to share your comments and suggestions.

As you know, ASSET is offered in English, Maths and Science in classes 3-10, and in Hindi in classes 4-8, and Social Studies in classes 5-10. Practice questions are provided in all the subjects in which you took ASSET.

Read through your analysis carefully to know how you did on each skill and question. By working on areas that need attention, you can easily improve and do better!

Best of luck!

Regards,

Sridharan

Chief Executive Officer, Educational Initiatives

CIRCULAR SKILL PROFILE

Student Name (8G)

The Circular Skill Profile represents your performance on each core skill in each subject test of ASSET you have taken. The outer circle represents 100%. The section between two axes represents a core skill in a subject, and the shaded region plots your performance on the skill. The greater the height of the shaded section, the better the performance.

Understanding Skills

The main difference between the ASSET (Assessment of Scholastic Skills through Educational Testing) tests and the regular school tests lies in the fact that ASSET tests are SKILL-BASED. Skills or competencies refer to specific abilities that a student develops. A skill-based test can be contrasted with a fact- or memory-based test. In the latter type of tests, the student is asked to recall or reproduce facts more often than to apply the concepts taught to them. However, most competitive exams, entrance tests as well as international admission tests (like the GRE) tend to be skill-based. This is because it is being widely appreciated that a student's understanding can be tested better with a skill-based test rather than a fact-based one. Facts and their recall are important; however, they should not be overemphasized and ASSET believes in this.
